

Employment Opportunity

The **Churchill Northern Studies Centre** (CNSC) is an independent, non-profit research and education facility located 23 km from the town of Churchill, Manitoba along the shore of historic Hudson Bay. The CNSC facilitates scientific research and educational programming in the physical, biological and social sciences by providing accommodations and logistic support to scientists and educators. The Centre's newest building, opened in June 2011, employs a variety of award-winning green building features designed to reduce water and energy consumption. Learn more at www.churchillscience.ca

Internship Position Seasonal Research Technician

This is a paid internship position with field and laboratory components based in Churchill, Manitoba. The position will be 4 months in duration (starting as soon as possible) with a possibility of extension. The Seasonal Research Technician will assist with CNSC in-house research, provide logistic or field support to visiting researchers, maintain equipment inventories and biological collections, and collect data under contract to Centre clients. This position will also support science outreach and the delivery of general education and youth programming. Experience working in a remote field setting, in excellent physical condition, and a willingness to conduct field work through all seasons is necessary. Flexible scheduling and on-call duties required. Experience in off road vehicle operation (ATVs and snow machines) and a valid firearms possession/acquisition license (PAL) would be a definite asset. Must be a Canadian citizen and between the ages of 18 – 30. Preference will be given to those residing in Manitoba due to public health travel restrictions. Detailed job description and salary available by request.

Please submit a detailed resume by email **no later than May 5th, 2021** to the address indicated below.
