SUSTAINABILITY TECHNICIAN

Classification: Permanent

Applications can be submitted via email to [sustainability@churchillscience.ca](mailto:sustainability@churchillscience.ca). Please quote job title in subject line.

**Application deadline: September 4, 2022**

Anticipated start date: September 20, 2022

churchillnorthernstudiescentre

The Churchill Northern Studies Centre (CNSC) is an independent, non-profit research & education facility, located 23 km outside of Churchill, MB. The CNSC facilitates scientific research and provides educational programming on the natural sciences and the environment. Successful candidates will benefit from the wide range of skills and experiences gained by working at an active research facility.

## Sustainability Technician

Do you have a passion for the Churchill community and northern food systems? The Churchill Northern Studies Centre is hiring a new Sustainability Technician to assist with projects including Rocket Greens and other sustainability initiatives.

### Minimum Qualifications

- a) Knowledge of Churchill and northern food systems
- b) Passion for food projects, sustainable ideas, and the Churchill community
- c) High school diploma or equivalent

### Job Description

Job responsibilities include weekly tasks involved in running the Rocket Greens project and Launch Box subscription service. You will be seeding, transplanting, cleaning, and harvesting fresh greens. You will also help the Sustainability Coordinator to think up new project ideas and ways to reach the community of Churchill through our work.

### What you will learn...

- Care for plants and monitor their health
- Look after a hydroponic container including plumbing, lighting, nutrients, and other features
- Connect to the Churchill community in new ways
- Work as part of a diverse team and support those around you
- Present information more confidently
- Explain difficult concepts in a simple way
- Build relationships with locals, researchers, short-term visitors, and tourists
- Prioritize tasks
- Use creative solutions to resolve issues

### What we are looking for

We are looking for someone who is community-minded, excited about indoor growing, interested in producing local food, and enjoys keeping things clean and organized. The successful applicant will be comfortable talking to small groups of people and presenting sustainability information in an informal context. This person will be flexible, adaptable, and willing to support other departments when needed.

Does this sound like you?
